

BLUE LOBELIA

Lobelia elongata

Description: Plant long and wispy. Flowers typical of the lobelias with 5 petals are relatively small, deep blue. Flowers mostly confined to one side of the stem. Stem thin. Lower leaves elongate, grass like with sharply toothed outer margins.

Natural Habitat: Swamps and wet meadows.

Size: 3 ft. tall

Growth Rate: Moderate

Light: sun to part shade

Planting and Care: Moist soil to entire inundation.
