

# ***FETTERBUSH***

Lyonia lucida

## ***AKA Staggerbush, Hurrahbush***

**Description:** An evergreen shrub having sharply angled branches, leathery dark green leaves. The pink flowers are perfect and occur on stalks that hang from the twig.

**Natural Habitat:** Grows in shrub bogs and bays, seasonally-wet pine savannahs, cypress-gum ponds, wet woodlands.

**Size:** 2 - 6 ft.

**Growth Rate:** Moderate

**Light:** Partial shade

**Planting and Care:** Best in moist to damp soil but will not tolerate constant moist soil.

**Wildlife Benefits:** Attracts bees
