COMMUNITY PARTNERS

OUR MISSION

The North Carolina Coastal Federation empowers coastal residents and visitors from all walks of life to protect and restore the water quality and the critically important natural habitats of the North Carolina coast.

Since 1982, the North Carolina Coastal Federation has been instrumental in protecting and restoring the beautiful coast of North Carolina. Through education, advocacy, outreach and collaboration, the Federation protects and restores coastal habitat and water quality to support fishing, swimming and a vibrant coastal economy. We are proud of what we've

accomplished with the help and support of our partners and members – restoring thousands of acres of wetlands and oyster habitat, protecting those special places on our coast and engaging more than one million people each year through workshops, education programs, community events, and more. With your help, we can and will make a difference.

The North Carolina Coastal Federation's Community Partners include businesses and organizations who support the efforts of the Federation to keep our coast productive, healthy and beautiful. These partners demonstrate their commitment to the environment by helping protect the places where we live, work and play.

Interested in the Coast

As a Community Partner, we'll put your business in front of more than one million of our friends and supporters. Our Federation family is a diverse and smart crowd who hail from North Carolina and beyond. Many live on the coast, or vacation or have second homes at the coast. They boat, swim, fish or just walk the beaches. Younger, older and very active, they all share one common value – they love North Carolina's coast and support businesses and organizations that feel the same!

Why partner with the North Carolina Coastal Federation?

The North Carolina Coastal Federation is one of the most widely-respected and successful organizations in our state, with a long history of finding real, common-sense solutions to the complex environmental challenges facing our coast. We are fiscally responsible, consistently earning the highest ratings from Charity Navigator, and work at the community level from three locations along our coast.

**Our award-winning *Coastal Review*,
a daily online news service
reaching up to one million readers
annually**

**Community events,
educational forums, and
virtual outreach to over
370,000 people on
social media.**

Community Partners have opportunities to connect with Federation supporters across the state and beyond through print and electronic materials, social media, programs, and signature events. We are proud to partner with businesses that share our love for the coast. Your meaningful support as a Community Partner will be clearly demonstrated to our membership and supporters through:

We can't do this without you! Enjoying Coastal Review is free. Producing it isn't. Please donate or sponsor today. [Support Our Work.](#)

High bacteria levels force officials to cancel triathlon swim

10/05/2017 by Lena Beck (SOG)

YMCA Wrightsville Beach Sprint Triathlon participants run Sept. 23. The swim portion of the race was canceled after abnormally high levels of bacteria was detected in the Banks Channel. Photo YMCA Wrightsville Beach

The YMCA Wrightsville Beach Sprint Triathlon's swim portion was canceled after state recreational water quality officials detected abnormally high levels of bacteria in the area.

The bacteria exceeded the Environmental Protection Agency's standards for what is safe for recreation, and
